

New Chairs for St Luke's Church!

Following extensive trials our preferred chair is the
LAMS JACOB Lightweight Wooden High-Stacking Chair
from Alpha Furniture

We intend to purchase 100 of these comfortable stacking and interlocking chairs, with 10 of them having arms.

See inside for how you can help us purchase these chairs!

100 chairs, with stacking dolleys, will cost us £16,506

How are we going to raise this amount of money?

We plan to raise £10,000 locally by inviting people to purchase one or more chairs for the church for £100 each chair. The rest of the money will come from grants and other fundraising.

Anyone can buy one or more chairs for St Luke's Church.

One good suggestion is to donate a chair in memory of a loved one. The chair can then have a discreet inscription attached to the book box on the back, like the one in this illustration taken from a cathedral in our diocese. The plaque measures approx. 3 x 1 inches.

But it is not necessary to have someone to donate the chair in memory of. You can donate one or more chairs just to support present and future generations who want to enjoy sitting comfortably in St Luke's Church!

Case Study: Holy Trinity Church in High Hurstwood have recently taken delivery of 125 lightweight wooden chairs. The high-stacking Jacob chair was selected following extensive testing of several designs. The competitive price and the built-in book storage were just two of the attractions of this ever popular design. The armchair version also features full-length arms, and is still able to stack. The Jacob chair also met the main criteria, of a lightweight, stackable, unupholstered chair that is economical on storage. In testing, the chair was deemed to be comfortable, as well as appropriate for the church interior, replacing the main body of pews while complementing the rest of the pews that remain in situ. The dolleys that store the chairs will also stack together when empty. This avoids the eyesore of scattering dolleys around the edge of the room while the chairs are set out.

The end result means that Holy Trinity have achieved chairs that are approved by the Diocesan Advisory Committee, look appropriate, feature the right options, yet are easily stacked and moved.
